

## **Terms and Conditions**

Let's Have A Toast is a web app where people from all over the world can virtually "toast" each other during festive season. The so called "toasts" are broadcasted to all users who are currently using the Web App - that's where the sense of community is created. With each toast we trigger a donation for a specific topic. You can navigate through pushing the red button. Here are the terms and conditions for using [letshaveatoast.app](https://letshaveatoast.app):

First, you choose your name. Please note, your entered name does not have to be your real name. We capture the entered name and broadcast it later on the Lets have a Toast website.

Second, you select your donation category. Behind each category there is a non-profit organization, except if you choose the category "The Creators". We have selected 8 big topics we want to support, honour and toast to. All of them are doing astonishing work to build a better future and planet. All of your donations will go without detours to the organization as we embedded the donation of each via paypal API key. Since we include paypal as a payment processor, please note that paypal has its own terms and conditions and its own privacy policy. You can find them here - we have no influence on paypal:

<https://www.paypal.com/de/webapps/mpp/ua/legalhub-full>

## **Contact**

Let's have a toast

We are Yanik, Henrik and Nils

If you have any questions, you can contact Nils Seele via

E-Mail: [nils.seele@gmail.com](mailto:nils.seele@gmail.com)

Address: Willy-Brandt-Straße 10e, 76275 Ettlingen Germany

We toast to your feedback - cheers!
